## Profile

Game artist focused on pixel art: character design and animation, animated cutscenes and UI. I also work in 3D (modeling, rigging and animation in Blender) and build materials and post-processing in Unreal Engine. I have made the art for four games released on itch.io: one as lead pixel artist in a team of five, and the other three as the sole artist.

## Projects

### BloodRunner

Team of 5 · about 2 months · Godot, Aseprite

**Lead pixel artist**

- Art direction: coordinating the art and keeping the project visually consistent.
- Design and animation of the main character, the boss and the animated cutscenes.
- Props, VFX, UI and sound (my own mixes built from sound libraries).
