Profile

Game artist specialized in pixel art: character design and animation, animated cutscenes and UI. Experienced in 3D (modeling, rigging and animation in Blender) and in materials and post-processing in Unreal Engine. Art for 4 games released on itch.io: lead pixel artist in a team of 5 and sole artist on the other 3.

Projects

BloodRunner
Mar 2024 – May 2024

Lead pixel artist · Team of 5 · Godot, Aseprite

- Led the art for a team of 5 and kept the whole game visually consistent.
- Designed and animated the main character: 9 character and 8 VFX animations (attacks, transformation, death).
- Animated the 7 limousine cutscene sequences and the final boss.
- Created props, VFX and UI, and mixed the sound effects from sound libraries.

Hells Gamble
Aug 2025

Lead artist (all the art) · 1-week game jam · team of 2 · Godot, Aseprite

- Made all the game art in 1 week as the sole artist.
- Designed and animated the main character, the weapons and the enemies (150+ animation frames).
- Created the animated cutscenes, tiles, props, backgrounds and UI, and mixed the sound.

OuroJam
Jul 2025 – Aug 2025

Lead artist (all the art) · 3-day game jam · team of 2 · Godot, Aseprite

- Made all the game art in 3 days as the sole artist.
- Designed and animated the main character and the intro sequence (42 frames at 512×288).
- Created tiles, props, animated backgrounds and UI, and mixed the sound.

Neorb
Mar 2026 – Present

Lead 3D artist (sole artist) · In development · team of 2 · Unreal Engine, Blender

- Created the concept art, then modeled, rigged and animated the enemies, props and environment.
- Built the post-process materials in Unreal Engine (technical art).
- Created the UI and mixed the sound.

Skills

Pixel art: Character design, animation (idle, run, attacks, transformations), animated cutscenes, tiles, backgrounds, props, VFX and UI.

3D: Character modeling, rigging and animation. Geometry Nodes for procedural models and animation.

Technical art: Stylized materials and shaders (crystal, comic), post-processing and VFX in Unreal Engine.

Other: Art direction and visual consistency across a project. Sound mixing from sound libraries.

Tools: Aseprite, Blender, Unreal Engine, Godot.

Education

Bachelor's Degree in Video Game Design and Development · UNIR, Universidad Internacional de La Rioja (online)

2022 – Present · 4th year
